

Prep4sureGuide

WELCOME USE TEST ENGINE

Prepare your actual test with our sure pass exam guide for successful result

Input your exam code ...

Our sure prep material equipped with the highest experts team and the most authoritative exam items plus the best service, which can ensure you 100% pass. Besides, our exam training guide can support both the fastest delivery speed and the shortest time to get all knowledge.

Quality and Value

Prep4sureGuide Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all dumps.

Tested and Approved

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

Easy to Pass

If you prepare for the exams using our Prep4sureGuide testing engine, It is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

Try Before Buy

Prep4sureGuide offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

Prepare your actual test with our sure pass exam guide for successful result

Exam : **HPE2-B06**

Title : **HPE Solutions with Microsoft**

Vendor : **HP**

Version : **DEMO**

NO.1 How should components be selected when architecting a solution for Azure Stack HCI?

(Choose Two)

- A. Based on the highest available technology, regardless of cost
- B. To meet specific workload demands and performance metrics
- C. Aligning with IT staff preferences
- D. According to data security and regulatory compliance requirements

Answer: B D

NO.2 Which HPE specific features enhance the Azure Stack HCI offering compared to other vendors?

(Choose Two)

- A. Seamless integration with Azure services
- B. Exclusive access to HPE GreenLake services
- C. Use of non-standard hardware components
- D. In-house developed operating systems

Answer: A B

NO.3 Which of the following is an advantage of a cloud-based infrastructure?

- A. Infinite physical storage capacity
- B. Reduced operational costs
- C. Absolute data privacy
- D. Zero downtime

Answer: B

NO.4 What are the key benefits of using HPE GreenLake with Azure Stack HCI? (Select two)

- A. Predictive maintenance
- B. On-demand scalability
- C. Increased power efficiency
- D. Consumption-based pricing

Answer: B D

NO.5 Which HPE tool is recommended for sizing Azure Stack HCI deployments?

- A. HPE Insight Remote Support
- B. HPE Sizing Tool for Microsoft Azure Stack HCI
- C. HPE OneView
- D. HPE InfoSight

Answer: B

NO.6 When architecting a solution for Microsoft Azure Stack HCI with HPE, what is crucial to consider?

- A. The brand of peripheral devices used
- B. The geographical location of headquarters
- C. The compatibility of hardware with software requirements
- D. The company's logo color

Answer: C

NO.7 What considerations should influence the compute resiliency level in an Azure Stack HCI solution?

- A. The potential for natural disasters based on geographic location
- B. The size of the IT department
- C. The daily data usage patterns
- D. The operational hours of the business

Answer: A

NO.8 Which of the following is a characteristic of Platform as a Service (PaaS)?

- A. Complete control over hardware infrastructure
- B. The ability to install and manage operating systems
- C. Automatic provisioning and management of infrastructure
- D. On-premise data center management

Answer: C

NO.9 What are some common use cases for deploying Microsoft Azure Stack HCI on HPE solutions? (Select two)

- A. High-performance gaming applications
- B. Virtual desktop infrastructure (VDI)
- C. On-premise hybrid cloud for enterprise applications
- D. Long-term data archival

Answer: B C

NO.10 Which cloud deployment model provides services to the general public over the internet?

- A. Private Cloud
- B. Public Cloud
- C. Hybrid Cloud
- D. Community Cloud

Answer: B

NO.11 How does Azure Stack HCI improve upon traditional infrastructures when deployed on HPE hardware?

- A. By eliminating the need for cloud connectivity
- B. By reducing physical server footprints and energy consumption
- C. By providing more manual control over hardware components
- D. By requiring less IT staff involvement

Answer: B

NO.12 Why is cloud scalability considered a major advantage of cloud-based infrastructures?

- A. It enables automatic updating of all client systems
- B. It reduces the need for end-user licenses

- C. It allows businesses to adjust resources based on demand
- D. It forces businesses into long-term contractual commitments

Answer: C

NO.13 Which of the following best allows differentiation between HPE and competitors for Azure Stack HCI solutions?

- A. Pricing of cafeteria services
- B. Unique features and performance capabilities
- C. Number of employees
- D. Office decoration styles

Answer: B
